

FJD EASY SWITCH

EASY SWITCH, INSTANT SHIFT

Easy Switch is an auxiliary device to help you easily use most FJD auto steer systems. With just one press or step, you can quickly change between autosteering and manual driving modes. You can get it with a button model or a button-pedal combo, meeting your preference and enabling you to work with different tractors.

By simplifying interaction, Easy Switch keeps you from getting distracted and lets you get more work done. It's built for modern farming, making your farming jobs easier and safer in the field.

One Press Switching – Fast and Effortless

Switch easily between manual and autosteering modes with a single press or step—no need to look at the screen, saving you time and effort.

Two Models Available – Button or Button-Pedal

Select the model you like best, either a simple button or a button with a foot pedal.

Simplified Operation – Stay Focused

Reduce the need to look at the screen to switch, so you won't get distracted. This helps you stay focused on your work in the field.

Wide Compatibility – Easy to Integrate

Work perfectly with FJD AT1/AT2/AT2 Max and other auto steer systems. It's easy to set up and makes your precision farming even better.

*All FJD autosteering systems are supported, except the AH2.

	 ES1	 ES1-F
Model	ES1	ES1-F
Components	Button	Button & Pedal
Operation	Press the button	Press the button or step on the pedal
