

# FJD AT2 PRO

## Auto Steer System

FJD AT2 PRO offers centimeter-level positioning accuracy with **RTX® satellite corrections** via a subscription service. It is available worldwide without the need of a base station or internet connectivity that limits the operating area.

### **Available Worldwide**

RTX services are available throughout the world even in the most remote areas without networks.

### **Centimeter-level Accuracy**

Provides consistent and reliable accuracy of 2.5cm to help get your job done correctly.

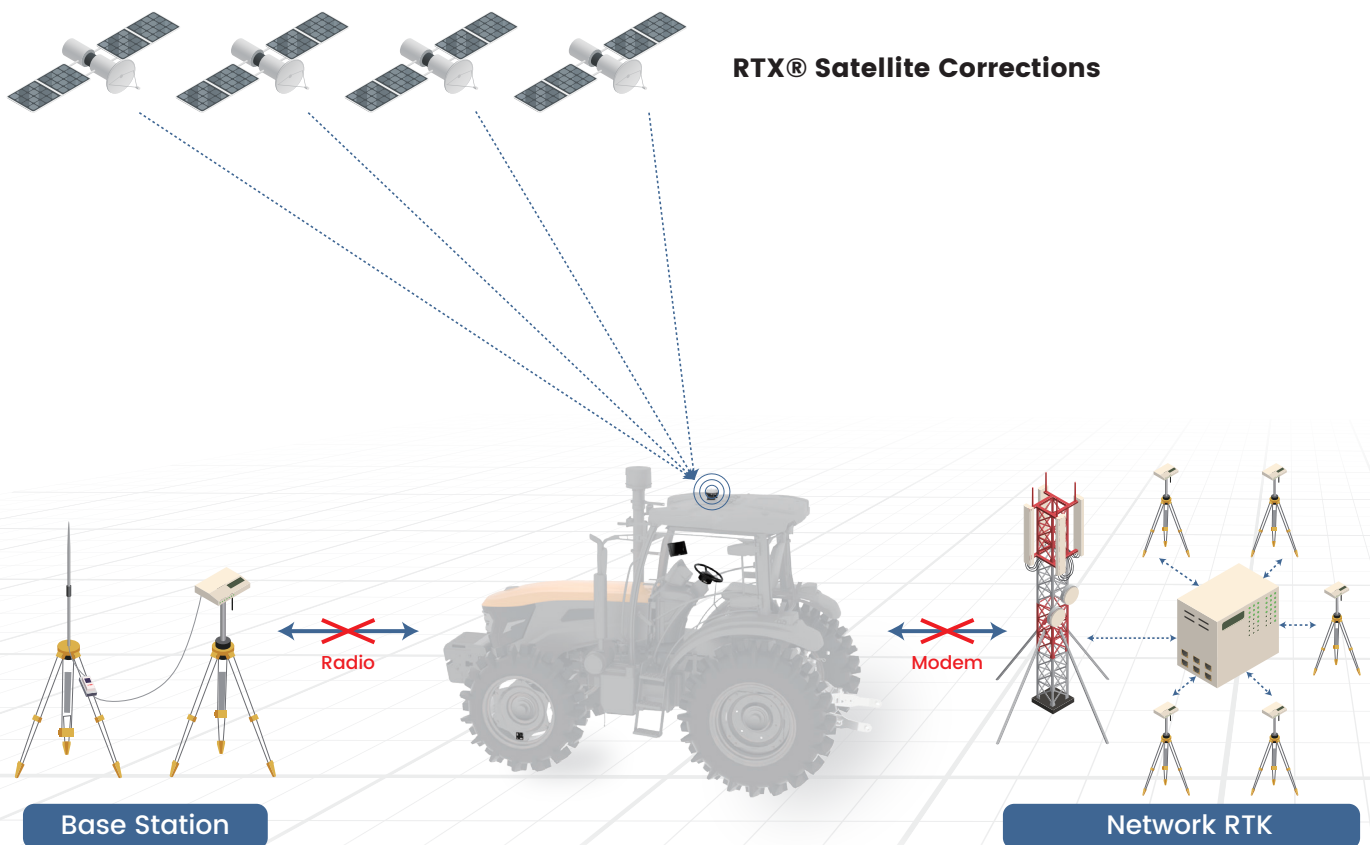

# WHY AT2 PRO?

## FREE FROM THE BASE STATION

- **No Setup**  
No need for base station and quick initialization allows for quick work starts when you step on-site.
- **No Limited Work Range**  
Different from the base station with a limited work range, it gets you covered anywhere.
- **No Maintenance Trouble**  
No need to replace batteries or charge them like base stations, free from maintenance hassles.

## FREE FROM NETWORK CONSTRAINTS

Delivered worldwide via satellite or cellular/IP, the real-time GNSS correction service provides reliable high accuracy in areas with poor network conditions or even no network, allowing for the freedom to work anywhere.
