Medium Display Comparison

(8-10 inch / 20-25 cm)

When it comes to the medium display market, Trimble provides the largest display with the GFX-1060™. The GFX-1060 offers a 10-inch screen in addition to a large storage capacity. Trimble recognizes that screen size isn't the only thing that matters and continues to provide cutting edge technologies through the ongoing addition of features. The following comparison looks at what is available out-of-the-box with no additional unlocks or licenses. This does not account for promotions or sales programs.
